### Register Now

Free for Emory, Morehouse School of Medicine,  
and Georgia Tech, faculty, staff, and students

Georgia Bio Members \$30; Non-Members \$60

[www.gabio.org](http://www.gabio.org)

### Keynote Speaker

#### William A. Hawkins, III ("Bill")

Chief Executive Officer of **Immucor, Inc.**,  
a TPG portfolio company and worldwide  
leader of transfusion and transplantation  
diagnostic products

### What is the purpose?

The Atlanta Clinical & Translational Science Institute (ACTSI), led by Emory University with partners Morehouse School of Medicine and Georgia Institute of Technology, and Georgia Bio, the state's life sciences industry association, organize this conference annually to provide critical information on how academia and industry can work together to translate science into discovery and engage communities in clinical research efforts and outcomes.

### What will be discussed?

Panelists and speakers representing academia and industry will describe current obstacles and opportunities in academic and industry device collaborations. The agenda includes stories of successful academic/industry partnerships, useful collaborative ideas and resources, and a networking lunch. In addition, Immucor CEO Bill Hawkins will deliver the keynote address: *Medical Technology Innovation a Case Study for Collaboration*. **AGENDA**
