HEALTH SERVICES RESEARCH OUTCOMES:

WHAT’S NEEDED, AND HOW THEY INFLUENCE NEW CARE MODELS

Gregory Esper, MD, MBA
OLD MAN IN THE KITCHEN
JEAN-BAPTISTE MARIE PIERRE (c. 1745)
Care Transformation Principles

Patient Family Centered Care
Cultural Competency and Diversity
Transparency

Shared Decision Making
Fair and Just Culture

EHC Strategic Agenda

Clinical Quality
Patient and Family Experience
Commitment to Those Who Serve
Discovery and Innovation
Financial Strength

Commitment to Those Who Serve
Care Model
Guiding Principles

Value
Innovation
Personalized Care Team
Access
Care Coordination
Communication standards
Education
Shared Decision Making
Standardization
GRANT FUNDING PROJECTIONS

NIH & NINDS Budgets

- NINDS
- NINDS (Projected)
- NIH
- NIH (Projected)

PCORI Budget

- (Projected)
  *Based on PPACA Funding Mechanism

Years: 2009 to 2018

Budgets: Billions
- 25, 30, 31, 32
Figure 1: Framework for Translation of PCORI National Priorities into the Research Agenda

**Priorities**
- Comparative Assessment of Options for Prevention, Diagnosis, and Treatment
- Improving Healthcare Systems
- Communication & Dissemination Research
- Addressing Disparities
- Accelerating PCOR and Methodological Research

**PCORI Criteria**
- Impact on Health of Individuals and Populations
- Improvability via Research
- Inclusiveness of Different Sub-Populations
- Addresses Current Gaps in Knowledge/Variation in Care
- Impact on Healthcare System Performance
- Potential to Influence Decision Making
- Patient-Centeredness
- Rigorous Research Methods
- Efficient Use of Research Resources

PCORI Research Agenda → PCORI Funding Announcement(s)
“Research is only a beginning and not an end in itself. On a daily basis, this means ensuring that providers use evidence-based research to deliver high-quality health care and to work with their patients as partners. Evidence garnered from research helps patients to become better informed health care consumers and to be partners in their own care.”

CAROLYN M. CLANCY, M.D.
DIRECTOR
AGENCY FOR HEALTHCARE RESEARCH AND QUALITY
HEALTH SERVICES RESEARCH OUTCOMES SHOULD:

- Enhance value-based care
  
  Quality * Pt satisfaction
  Cost

- Begin to solve problems including extreme lack of access and care coordination

- Define the balance between primary care, specialist care, and principal care delivery

- Enhance Shared Decision Making and create paradigms to improve patient engagement
