Transforming Healthcare
Beth Mynatt
The convergence of people, technology, and enterprises.
Interoperable HIT in the Cloud

Novel Sensor Data

Digital Clinical Data

Timely Personal Data
Empowered Ubiquitous Health

Engaging Patient Apps

Assistive Robotics

Aging in Place
Large Data Analytics

Discovery of New Medical Evidence

Behavior Imaging

Personalized Healthcare
Process-based Design of Space and HIT

Care Delivery Optimization

Modeling & Simulation

Novel Care System Simulation

Institute for People and Technology
