- 87% are on page 1
Online health information leads to more effective appointments

- Average wait time for doctor appointments in the 15 largest US markets is **20.5 days**
- **71% of U.S. consumers** have difficulty making timely doctor appointments, getting phone advice or receiving after-hours care
- **56 million Americans** live in census classified rural areas with inadequate access to primary care
- **30% of e-health consumers** say online health information leads them to ask a doctor new questions or to get a second opinion from another doctor
Support

Sharecare will facilitate live physician visits through multiple channels.
